

Bobby, Karen and their mom and dad were in their car and ready to go to their grandmother's house.

Mom, Dad, can we bring Inspector Detector along?

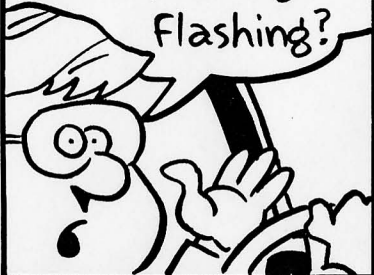

Sure!

As Inspector Detector jumped in the backseat of the car, immediately his red light began to flash.

Inspector Detector, why is your light flashing?

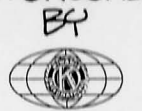

The seatbelts are on the seats instead of around the passengers.

Hey, Inspector Detector, that's right! Seatbelts help keep us safe in a car! We're sure glad we brought you along to remind us!
